Yomna Abdel-Mohaimen

Product Designer (UI/UX)

Cairo, Egypt · Open to remote roles · yomna.mohaimen@gmail.com · LinkedIn

SUMMARY

Product designer with experience in B2B e-commerce at Sary, where I used behavioral data (Amplitude) to find where users drop off and turn it into clear design decisions. I also design and build self-initiated products: Sensa, an AI user-behavior analytics tool designed and built with AI tools, and fintech concept projects (Flexpay, Goalden). My background in textile engineering and visual design shapes a detail-driven, user-focused practice. I work closely with engineers and product managers to keep designs practical and ready to build.

EXPERIENCE

Product Designer, Sary (B2B e-commerce, Saudi Arabia)

2024 – 2025

- Design end-to-end digital product experiences, from user flows and wireframes to polished, handoff-ready UI.
- Use product data such as funnels, heatmaps and session recordings to find where users struggle and turn it into clear design recommendations.
- Improve usability and consistency through UI patterns, design audits and thoughtful interaction details.
- Work closely with engineers and product managers to keep designs practical and ready to build.

Self-initiated projects

2025 – Present

- **Sensa:** take a product from idea to a live, working result, designing the experience and building it with AI tools.
- **Flexpay** and **Goalden:** explore fintech product areas through concept work covering research, flows, UI and prototypes.

Earlier experience

- **Content Creator, Sary** (2019 – 2024): visual content for web and social, with deep familiarity with the product and its users.
- **Freelance Graphic Designer** (2018 – 2019): social media content and logos for small businesses.
- **Operations & Marketing Coordinator, MIM Creative Wear** (2016 – 2018).

EDUCATION

B.Sc. Textile Engineering, Faculty of Applied Arts, Helwan University, 2018

COURSES

Google UX Design, Coursera (2023) · Building Design Systems in Figma, Udemy

SKILLS

Design: Figma, Framer, Photoshop, Illustrator **Research and analytics:** Amplitude **Build:** Cursor, Claude, HTML

Languages: Arabic (native), English (professional)
